

4-1B: Writing a Function Rule

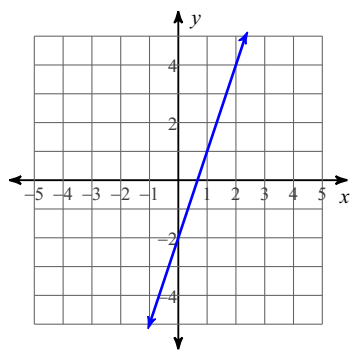

Given the table of points, write the function rule.

1) $y = -2x - 5$

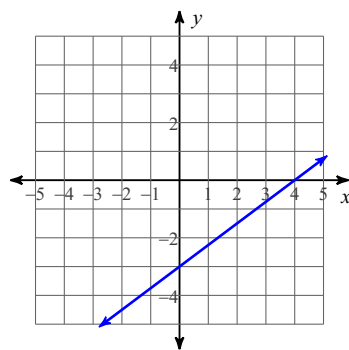

2) $y = 7x - 3$

Write the slope-intercept form of the equation of each line.

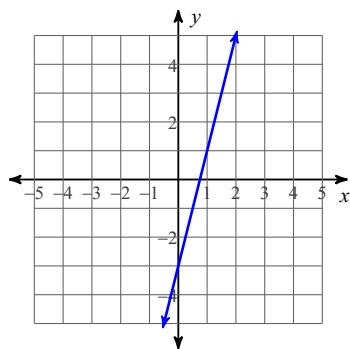

3)

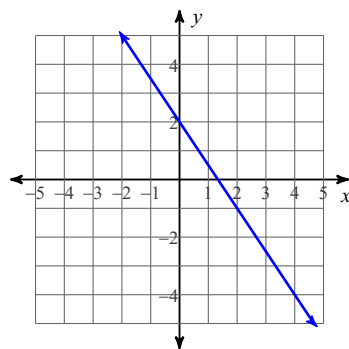

4)

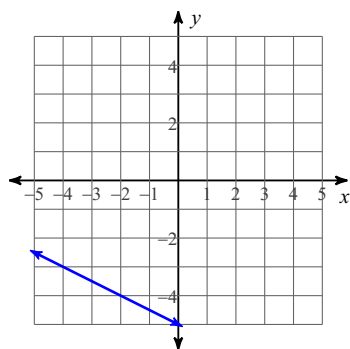

5)

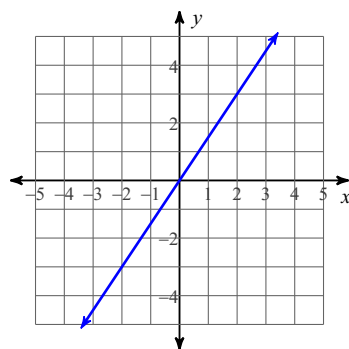

6)

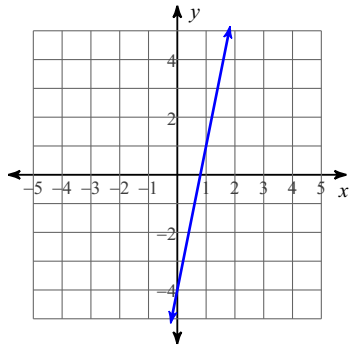

7)

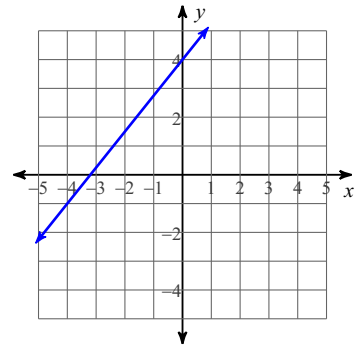

8)

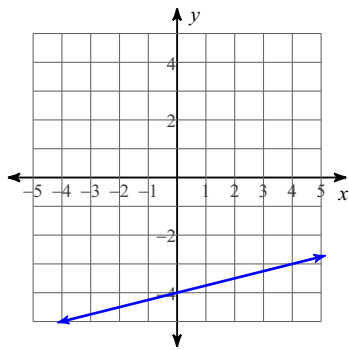

9)

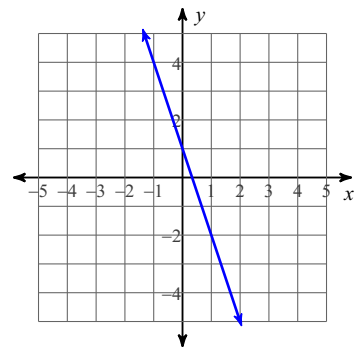

10)

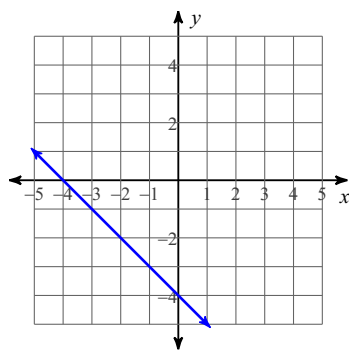

11)

12)

13)
