

5-5A: Standard Form to Slope Intercept

Date _____ Period ____ Table _____

Write the slope-intercept form of the equation of each line.

1) $2x + y = -3$

2) $2x - y = -8$

3) $2x - 5y = -10$

4) $x + y = 8$

Sketch the graph of each line.

5) $7x - 5y = 25$

6) $3x - 2y = 8$

7) $x - 3y = 0$

8) $x - y = 0$

9) $3x - 4y = -16$

10) $5x + 4y = 0$

11) $2x + 3y = -3$

12) $2x - y = 1$

13) $x - 4y = 20$

14) $x - y = -4$
